DECLARATION
of
COVENANTS, CONDITIONS, EASEMENTS & RESTRICTIONS
===== RANGLAND OAKS - UNIT I =====

STATE OF TEXAS §
 §
COUNTY OF MEDINA §

WHEREAS, REMINGTON EQUITY, LTD., a Texas limited partnership, its successors or assigns (the "DECLARANT") being the Owner of the following-described real property lying and being situated in the County of Medina and the State of Texas and being more particularly described as follows, to-wit:

RANGLAND OAKS - UNIT I, a subdivision in Medina County, Texas, as shown by plat recorded in Plat Book No. 7, Pages 271-272, and Plat Book No. 7, Page 273, Plat Records of Medina County, Texas, to which references here made, (the "Subdivision");

for the purpose of carrying out a uniform plan for the development of a quality residential neighborhood, does hereby make, declare, adopt and impose upon the above-described real property the following covenants, conditions, easements, restrictions, and limitations, which shall apply to and become a part of all legal instruments whereby title or possession to any lot in said subdivision is hereafter conveyed or transferred, such covenants, conditions, easements, restrictions, and limitations to run with the land and to be binding upon and inure to the benefit of all parties, now or hereafter, owning or using the above-described property or any portion thereof, their heirs, executors, administrators, successors, and assigns.

1. Residential Use: All lots within the Subdivision are hereby restricted exclusively to single-family residential use. No lot shall ever be used for a business or commercial purpose. No structures shall be erected, placed or maintained on any lot other than a conventional on-site constructed single-family residence with such accessory structures and buildings as a shed, garage, cabana, guest house and/or servant's quarters. Not more than one single-family residence may be erected on a lot. The term "conventional on-site constructed single-family residence" shall exclude specifically mobile homes, double-wide mobile homes, house trailers, modular homes and move-on homes. As used in this Declaration, the term "lot" refers to any numbered plot of land shown upon a recorded plat of any portion of the Subdivision and to any smaller parcel(s) into which such lot may be divided in the future in accordance with the terms hereof.

2. Size and Specifications: On lots 1 through 12, each dwelling shall not be less than 1,500 square feet of heated and air-conditioned space, exclusive of basement, garage, carport, and porches. In the case of multi-story dwellings the minimum size shall be 1,750 square feet with not less than 1,000 square feet of heated and air-conditioned space in the first floor.

All residences must have a minimum of a single-car garage. If a carport is constructed in addition to the required single-car garage, the carport must be beside or behind, but not in front of the garage or single-family residence. The garage and/or carport shall be either side entry or rear entry. There shall be no garage or carport entries facing the front street, or side street if on a corner lot. If any portion of a carport is visible from any street, the street side must be a solid wall to match the exterior of the residence whereby there is no visibility from the street into the carport.

At least 30% of the total exterior and 100% of the front exterior of any residence must be masonry. This masonry requirement may be deviated from, at the Architectural Control Committee's discretion, when a residence exceeds 3,000 square feet.

244 739

3. Driveways: All driveways must be either concrete, asphalt pavement, brick/concrete pavers, gravel or other similar material, except that portion of the driveway from the county road pavement to the property line must be concrete or asphalt.

4. Quality Workmanship: All improvements and structures including but not limited to homes, garages, barns, fences, sheds, storage buildings, and other improvements shall be constructed of quality material and in a workmanlike manner. Such improvements shall be maintained and situated so that their appearance will not be detrimental to the subdivision as a whole. All improvements shall be kept weatherproofed by painting or such other method as may be necessary and appropriate, and none of the improvements shall be allowed to deteriorate to the detriment of the neighborhood as a whole.

5. Storage of Materials and Personal Belongings: No materials or personal belongings of any kind shall be placed upon any lot except within a garage, storage shed, or other comparable enclosed structure. Any building and construction materials must be removed within thirty (30) days of completion of the structure.

6. Setback Requirements: The single-family residence, garage, carport, or other residential building of any kind shall have a building setback line from the front property line according to the following schedule:

LOTS	STREET NAME	SETBACK
1 - 12	F.M. 1283	150'
10 & 11	future right-of-way	50'

The single-family residence, garage, carport, or other residential building of any kind shall not be located nearer than 20 feet to any other side or rear property line. All storage buildings, sheds, and any other enclosures, or any other items used for any purpose must also be behind the building setback lines (and behind the residence, when built) and shall not be nearer than 20 feet from the side property lines. Any storage buildings, sheds, and other enclosures may not be placed or built on the property until the home is under construction.

7. Easements: Easements are hereby reserved and dedicated over and across a twenty foot (20') strip along front and ten foot (10') along each side and rear lot line for the purpose of installing, maintaining and repairing, electric power, gas, telephone, water, cable, community mailbox station, drainage and/or any other similar utility lines, facilities, and services for the lots in the Subdivision. The easements reserved and dedicated hereby shall be for the general benefit of the Subdivision. These easements shall inure to the benefit of, and may be used by, any public or private utility company entering into and upon the Property for such purposes, without the necessity of any further grant of such easement rights to such utility companies. Any lot owner installing a fence or other improvement within the area encumbered by the easement does so at his own risk. If two or more lots are consolidated into a building site in conformity with the provisions of paragraph nine, these easement provisions and the setback provisions in paragraph six shall be applied to such resultant building site as if it were one original platted lot.

8. Platted Easements: In addition to those set forth in this Declaration, each lot shall be subject to all easements, set-back lines, covenants and restrictions set forth on the recorded plat covering that particular lot.

9. Restriction on Further Subdivision: There shall be no dividing, subdividing, or resubdividing allowed of any of the lots in this subdivision into smaller lots or tracts. All lots in this subdivision will remain the size platted on the subdivision plat, except that any person owning two or more adjoining lots may consolidate such lots into a single building site. Notwithstanding anything else herein to the contrary, Declarant hereby reserves the right to subdivide any lot(s) it may own into resulting lots of not less than one and one-half (1 1/2) acres each.

10. Sewerage and Water Wells : No means of sewerage disposal may be installed, used or maintained except a septic system, or a similar or improved means of sanitary sewerage disposal, which meets the requirements of and is approved by all governmental authorities having jurisdiction thereof. No residence shall be used until sanitary sewerage disposal facilities complying with this paragraph have been completely finished. Water Wells must also meet the requirements of and be approved by all governmental authorities having jurisdiction thereof. This includes, but is not limited to, the maintenance of a 150 foot sanitary control easement around any water well. No septic system is allowed within any sanitary control easement.

The location of the septic system and water well must be approved by the Committee in advance. The Committee has the right to change the proposed locations of septic and wells to meet governmental requirements or to minimize the encumbrance of sanitary easements on adjoining lots.

11. Draining Structures, Ditches, and Stock Tanks: Drainage structures under private driveways shall be constructed to Medina County specifications, if any, so as not to block the flow of water and must be constructed before any residence or other structure may be placed on the lot. Such structures, where needed, are to be installed at the expense of Buyer. Natural drainage and stock tanks shall not be altered, constructed, or changed without prior written approval from the A.C.C. and appropriate government agencies.

12. Trash Disposal: No lot shall ever be used for outside, unenclosed storage of any items or materials whatsoever, nor shall any lot or part hereof be used or maintained as a dumping ground for rubbish or debris or junk. Trash, garbage or other wastes shall not be permitted except in sanitary containers. All incinerators or cans or other equipment for the storage or disposal of such materials shall be kept in a clean and sanitary condition and behind lot improvements so they are not visible from any street. Cut or trimmed brush must be disposed of within 30 days of cutting.

13. Nuisances: No noxious, offensive, undesirable, unlawful or immoral activity shall be conducted on any lot, nor shall anything be done or permitted to be done thereon which may be or become a nuisance or annoyance to the owners of adjacent lots or to the Subdivision as a whole. Any determination by the Committee that an activity is noxious, offensive, undesirable or immoral shall be final and binding on all parties.

14. Unused Vehicles: The placement of junked, abandoned, wrecked, or non-operating items such as motor vehicles, boats, or other equipment or materials shall not be permitted on any lot in the subdivision. No car, boat or other vehicle or equipment not in running condition or not regularly used by the lot owner shall be allowed to remain on any lot in the subdivision for more than one week unless in enclosed storage. The repairing of motor vehicles, boats, or any other items of a mechanical nature of any kind shall not be permitted on any lot in the subdivision except within a garage or other comparable enclosed structure.

15. Boats and Trailers: No boats, boat trailers, travel trailers, campers, recreational vehicles, motor homes or other similar property shall be allowed to remain on the lot unless such items are regularly and frequently used by the lot owner, well-maintained and neat in appearance, stored behind or beside the improvements (such as the residence, garage, or storage barn), and screened from view from all roadways and adjoining lots.

16. Temporary Structures: No structure or improvement of a temporary character, nor any trailer, recreational vehicle, tent, camper, shack, garage, barn or other outbuilding shall at any time be used as a residence or dwelling, either temporary or permanent, without the prior written approval of the Architectural Control Committee.

17. Pets: Dogs, cats or other household pets not to exceed a total of six in number (exclusive of unweaned offspring) may be kept on any lot so long as they are not kept, bred or maintained for any commercial purpose. Common household pets are the only animals allowed in the subdivision except that one horse per two and one-half (2½) acres owned is allowed. Swine, poultry, goats, sheep and bovine (cows, etc.) are not considered common household pets and are not allowed on any lot.

An FFA or club project may be allowed by the Committee upon written request to such Committee. The Committee may deny the request for any reason. (i.e. number of animals, type of animal, etc.)

No such pets or animals may be kept if they become offensive or a nuisance by virtue of their numbers, sight, odor or noise. If a question arises as to whether an animal (individually or considered together) is offensive or a nuisance, the Committee shall make the determination and its determination shall be final and binding on all parties.

18. Animal Containment: All animals shall be contained within the lot lines either by fence, leash, or other comparable device. Animals shall not be allowed outside an owners lot. Animals may not be kept on the property prior to the owner living in and occupying the residence. Any pen, corral, structure or enclosure of any kind must be constructed of new material, must be attractive in appearance in keeping with the general standard of improvement in the subdivision, cannot be built until the residence is under construction, and must be at all times kept neat and clean in appearance, consistent with the requirements herein specified for other improvements in the subdivision. All such improvements must be located behind the residence, and not closer than twenty (20) feet to the side property lines.

19. Fences: ALL fencing must be approved in advance of installation by the Architectural Control Committee. Barbed wire fencing, T-Bar posts, hog and chicken wire and similar other fence wiring is not allowed from the residence to the front street or from the residence to the side street (if any). In no case shall the above fencing be allowed closer than 150' to any street. If fencing is installed from the residence to the street(s), it must be metal pipe fencing of at least 1½-inch diameter, wood fencing with no wire, masonry fencing, iron fencing, or a combination thereof, or some other fence type approved by the Architectural Control Committee. Dark-colored vinyl-coated chain-link fencing is allowed from 100 feet behind the front property line to the rear of the lot. If the residence is closer to the front property line than 100 feet, then dark-colored vinyl-coated chain-link fencing is allowed from the residence to the rear of the lot.

All fences must be mowed and kept clean of weeds, trash and garbage at all times. All fences must be well maintained to prevent sagging and deterioration and installed in a quality, workmanlike manner.

20. Mailboxes: If individual street side mailboxes are utilized in the subdivision in lieu of collection stations, each resident mailbox must be enclosed in the same brick or masonry as used on the residence. In addition, on the street side of the mailbox enclosure, the numerical address must be engraved in a cast stone.

21. Signs: Except for one sign of not more than six square feet advertising the property for sale or for rent, no signs of any kind shall be displayed to the public view from any lot.

22. Hunting and Firearms: Hunting, trapping and discharge of firearms are expressly prohibited within the Subdivision.

23. Clothes Drying Facilities: Outside clothes lines or other facilities for drying clothes or airing clothes shall not be erected, placed or maintained on any Lot unless they are concealed in such a manner so as not to be visible from neighboring property or from streets.

24. Oil, Gas and Mineral Development: No oil or gas drilling, exploration or development operations, oil or gas refining or treatment, quarrying or mining operations of any kind shall be permitted on a lot, nor shall oil wells, tanks, tunnels, mineral excavations or shafts be permitted on any lot. No derrick or other structure designed for use in boring for oil, natural gas or other minerals shall be erected, maintained or permitted on any lot.

25. Rights of Declarant: The Declarant or its agents shall have the right to use any unsold lot for a sales office location, for a future right of way or for any other purpose developer deems necessary. The same Declarant rights apply to any sold lot, with the owner's permission. Declarant shall also have the right to use the front 20 feet from any lot fronting on F.M. 1283 for directional or promotional signs.

26. Parking: Streets shall not be used for parking except for occasional or emergency parking of vehicles. No continuous parking of automobiles or any other type of vehicle will be permitted on any street or road right-of-way in the subdivision at any time.

27. Enforcement: Any person owning any interest in any of the lots in said Subdivision, including mortgage interest or the property owners' association (see item 36), may enforce these restrictions through a proceeding at law or in equity against the person or persons violating or attempting to violate any covenant, condition, restriction, or limitation, either to prevent or to correct such violation, or to recover damages, or to obtain other relief for such violation. All expenses, including a reasonable attorney fee, shall be recovered from anyone violating these restrictions by the party bringing the suit.

28. Architectural Control Committee: All improvements on each lot shall be subject to the review and approval of an Architectural Control Committee (hereinafter referred to as the "Committee" or "ACC") as follows:

a. There is hereby created and activated a Committee for the purpose of providing for the harmonious architectural design and location of improvements within the subdivision. The committee shall review and approve the plans and proposed location of all residences, outbuildings, fences or other improvements to be built, placed or made upon any lots and shall perform such other duties and responsibilities as are allocated under other paragraphs of this Declaration. The initial members of the Committee shall be Rex Bohls, Doug Lewis and C. Bryan Stuckey, Jr. If any one or more of the three members refuses or fails to serve, the remaining member or members are hereby authorized to appoint a person or persons as replacement members. In the event all of the Committee members fail, refuse or are unable to serve, then the owners of property in the subdivision shall elect a new Architectural Committee, each lot in the subdivision to have one vote in such election. Upon formation and activation of the Property Owners' Association, as hereinafter provided, all rights, duties and responsibilities of the Architectural Control Committee shall automatically be transferred to and vested in the Board of Directors of the Property Owners' Association.

b. No building, structure, fence, septic system, water well, or other improvement shall be constructed commenced, erected, placed or maintained on any lot, nor shall any addition to or change or alteration therein be made, until the construction plans and specifications, and a plot plan showing the location of all such structures and all appurtenances thereto, have been submitted to and approved by the Committee.

c. Construction plans and specifications submitted to the Committee shall be in such form as it may require and shall include, at a minimum, plans of all floors and levels involved, elevations of all sides of the proposed structure, a section through the structure to explain the relationship of the floor levels and stairs, notes to specifications describing the materials to be used on the exterior and location of the proposed improvements or alterations thereto on the lot.

d. The ACC may, but need not, hire specialized consultants and incur expenses up to Two Hundred Dollars (\$200) to aid it in reviewing plans and their incidents. The cost of such consultants and expenses shall be considered a cost of the lot owner and such plans will not be considered until these costs are paid.

e. The Committee's approval or disapproval or other action as required in these covenants shall be by majority vote, shall be evidenced in writing and shall be delivered in person or by registered or certified letter addressed to the requesting party at an address which must be supplied with the submission. In the event the Committee should fail to approve or disapprove the plans, specifications and plot plans within fifteen (15) days after they have been submitted to it, it will be presumed that the same have been approved, provided the same were submitted to the Committee in writing by certified mail, return receipt requested, with an address provided to which the reply should be mailed. The judgement of the Committee in the exercises of its discretion in this respect shall be final and conclusive. Under no circumstances shall the Committee or any of its members be subject, jointly or severally, to any suit by anyone for money damages or otherwise.

f. Construction or placement of any improvement approved by the Committee shall commence within six (6) months of such approval; and the completion of such construction or placement must be accomplished within nine (9) months of the commencement of same.

29. Limitations of Liability: Neither the Declarant, nor the Architectural Committee, nor any member of such Committee, shall be liable in damages or otherwise to anyone submitting plans, specifications and plot plans for approval or to any owner of any portion of the Property by reason of mistake of judgment, negligence or nonfeasance arising out of or in connection with the approval or disapproval or failure to approve or to disapprove any plans, specifications, plot plans or other matters submitted to it or arising out of any other action taken or not taken by them, jointly or severally, pursuant to the provisions of this Declaration.

30. Cleaning Lots: After written notice of fifteen (15) days to cure to the owner thereof, the Architectural Committee shall have the right to clean and clear lots of unsightly weeds, grass, brush, trash, and refuse, such cleaning and clearing to be at the expense of the particular lot owner and for which a lien in favor of the Committee, or its assigns, may be placed upon the property, including interest, costs, and attorneys fees.

31. Partial Invalidity: If any portion of this Declaration is declared illegal, invalid, or unenforceable by law or court order, such action shall not affect the validity of any other provision hereof. Failure to enforce any one or more provisions hereof shall not constitute a waiver thereof as to future enforcement and shall not serve to invalidate any other provision of this Declaration.

32. Duration: These covenants, conditions, easements and restrictions shall run with the land and shall be binding upon and against the Property for a period of twenty-five (25) years from the date of recordation, after which time said covenants shall be automatically extended for successive periods of ten (10) years unless an instrument signed by the then owners of seventy-five percent (75%) of the Property (by lot) has been recorded agreeing to change said covenants in whole or in part. No such agreement to change shall be effective unless made and recorded within three months immediately prior to the date the covenants otherwise would be automatically extended.

33. Deviations: The Committee may exercise a limited right to approve minor deviations from the provisions hereof without an actual amendment of the Declaration, when, in the opinion of the Committee, such deviation will be beneficial to other owners of lots in the Subdivision. The Declarant hereby reserves the right to amend these restrictions when, in the opinion of the Declarant, such amendment will be beneficial to the subdivision. This right of the declarant to amend these restrictions shall terminate when the Property Owners' Association is activated pursuant to paragraph 36.

34. Laws and Regulations: All owners of any lots within the Subdivision shall at all times comply with all applicable laws, regulations and ordinances of municipal, county, state, federal or other governmental authorities.

35. Texas Veterans Land Board: It is anticipated that some of the lots within the Subdivision shall be sold to veterans through the Texas Veterans Land Board Program. Notwithstanding anything to the contrary contained herein, these restrictions shall not, and shall not be construed to, prevent the Texas Veterans Land Board from deeding one acre to a veteran for a homesite in order that he might construct a residence thereon. Nor shall these restrictions be construed to charge or assess any fees to the Texas Veterans Land Board.

36. Property Owners Association: Each owner of a lot in the Subdivision shall be a member of the RANGLAND OAKS PROPERTY OWNERS ASSOCIATION (the "Association" or "POA"). A meeting of all members of the Association shall be called: (1) within thirty days (30) following the date the Declarant has sold more than 90% of the lots or January 1, 1997, whichever is later; or (2) earlier, at Declarant's discretion, for the purpose of activating the Association. The purpose of the Association is to provide for the management, maintenance, administration, and operation of: (1) the duties of the ACC; (2) the enforcement of these Declarations; (3) the subdivision entrance(s); (4) any property conveyed to the Association by the Declarant; and (5) any

other function pertaining to the well being of the Subdivision. A quorum of 25% of all lot owners is required for the initial organizational meeting. A majority of the quorum shall elect a Board of Directors and approve and conduct such other business as may properly be brought before such meeting. Each lot in the subdivision shall be entitled to one vote in the Association. When more than one person holds an interest in any one lot, all such persons shall be members of the Association but they shall collectively cast only one vote for each lot owned. The association shall be incorporated under the Texas Non-Profit Corporation Act, shall have a Board of Directors consisting of three (3) members until otherwise determined, and shall act by majority vote in accordance with this Declaration and with the By-Laws of the Association. Association must accept any property conveyed to it by Declarant.

37. Membership in Association: Each lot owner is required to be a member of the Property Owners Association. By acceptance of a deed or contract of sale to any lot or lots in the Subdivision, the owner thereof personally agrees to be and become a member of the Association and to be and become bound and obligated by the terms and provisions of this Declaration.

38. Obligations of Lot Owners: Each owner of a lot in the Subdivision covenants and agrees, and by acceptance of a deed or contract for sale to such lot is deemed to covenant and agree, to pay the Association (when activated) an annual maintenance charge. The annual assessment, together with interest, costs, and reasonable attorneys fees, shall, to the full extent permitted by law, be a charge and a lien on the lots subject to this Declaration and each shall be a continuing lien upon the property against which such assessment is made. Each such assessment, together with interest, costs, and reasonable attorneys fees, shall also be the personal obligation of the person who was the owner of each lot in the Subdivision at the time the assessment was due. From and after the activation of the Association, the Association shall have the duty and obligation to establish, collect and administer such assessments. There shall be no assessment established until the POA is activated. The lien of any assessment shall be subordinate to the lien of any first mortgage.

39. Annual Maintenance Charge: Beginning in the year the Association is activated, each lot in the Subdivision is subject to an annual maintenance charge (AMC) of One Hundred Twenty Dollars (\$60) per year. The amount of the AMC for each lot may be increased or decreased by the Board from time to time, but not more often than once per year. However, if any such change increases or decreases the AMC by more than twenty percent (20%) over the preceding year, the change must be approved by a majority of the Association members. The amount of the AMC shall be determined at least thirty (30) days prior to January 1st and written notice of such assessment shall be sent immediately to each member of the Association. If not paid by February 1st, the AMC shall be deemed delinquent and shall be subject to a late charge to be determined by the Board. Lots owned by Declarant shall not be subject to AMC.

40. Addition by Declarant: Declarant hereby declares that it presently contemplates that at a future time the Subdivision may be expanded (but Declarant does not hereby obligate itself to expand the Subdivision) by adding, from time to time, additional property to the Subdivision. These Restrictions shall become effective with respect to any such annexed additional property on the date on which there is filed for record in the Office of the County Clerk of the county in which the same are located, a Supplemental Declaration to that effect signed and acknowledged by Declarant. Such Supplemental Declaration shall describe the additional property; list the lots that will then constitute the Subdivision; refer to these Restrictions; declare that these Restrictions shall contain such additions, deletions, and modifications to these Restrictions with respect to the additional property as the Declarant, in its sole discretion, shall deem necessary or appropriate to distinguish the additional property from the remainder of the Subdivision, or as may be necessary or desirable for any other reason. Upon the filing of the Supplemental Declaration, each lot comprising the additional property shall be included within the definition of the Subdivision as set forth on Page 1 hereof. Declarant may cause to be recorded as many separate Supplemental Declarations as may be desired from time to time, at any time, to effect the annexation of additional property. Annexation of additional property may be accomplished by Declarant without the consent of any other party or entity.

41. Encompassing Nature of the Restrictions: Upon the filing of a Supplemental Declaration in compliance with the provisions of Paragraph 40 hereof, the powers and responsibilities of the Board shall be co-extensive with regard to all property included within the Subdivision, as expanded. The Board, pursuant to the provisions of these Restrictions, shall constitute the Board for the Subdivision, as expanded. The rights obligations, and duties of each Owner shall be determined in the same manner that the rights, obligations, and duties of the Owners were determined prior the recordation of such Supplemental Declaration. The Board shall thereupon continue to maintain one Annual Maintenance Fund for the collection and disbursement of monies as required and permitted hereby for the maintenance, repair, and operation of the Subdivision, as expanded.
